

# Fellside Blue Slate

Wallace International

slate  
uk

.Fellside Blue is without doubt one of the highest quality natural slates ever imported, being almost indistinguishable from U.K. mined slate.

Fellside Blue slate is manufactured under the strict quality control of Europe's largest and oldest slate producers, with over 250 years of sourcing the world's finest slate.

David Wallace are the sole UK importer with stocks held at our UK distribution centres.

Due to the limited supply and high demand for this quality product, please contact our office for up to date stock
